## Service Characteristics

### SEPARATION OF FX AND PAYMENT

Removes need for intermediate banks in handling the payment and provides competitive FX rates.

### CAPITAL AND LIQUIDITY EFFICIENT

No capital tied up in managing counterparty risks.  
Liquidity on demand.

### OPERATES OUT OF RTGS HOURS

Where banks pre-fund the Nomos settlement accounts, they can provide FX liquidity outside of central bank hours, avoiding trapped liquidity.

### FAST AND RISKLESS

From initial payment request to deliver in recipient account will take up to 30 minutes – many transactions will deliver in seconds.

Settlement occurs without risk using central bank money and provides legal finality.

### EASY TO IMPLEMENT

Uses existing SWIFT and RTGS connectivity, or alternatively through existing Correspondent connectivity.

No new technology required by Respondent banks

Send to any existing SWIFT beneficiary and does not require recipients to be contracted with Nomos.
